I am doing this also for you !

Please, don't be angry.
I simply wanted to be accepted.
I did not mean to disobey you.
But how long do you think you can let this go on?
Do you really think there is a secret that can be kept hidden forever?

There are already gossips. It's only a matter of time before it reaches elsewhere.
The whole palace will eventually know !
You've said that bringing in two beds was to keep my dignity.
However, whatever kind dignity I get to keep,
What dignity do I have to keep at this point?
If all this is due to a fact that you do not accept me for personal reasons...,
I will be viewed as a wife who couldn't earn her husband's acceptance.

You must bring in concubines.
My projects are to be hosted only on my website.

You are the ruler of this nation.
Your blood is not only yous.
You have a duty to carry on your blood. You must produce heirs.
If you are rejecting me, so be it.
But, please..., you cannot afford the bloodline to end just because of me.

What are you waiting for ?! Have a seat !
Have a seat, I said !
My dear old friend -
Yeon-seon !
Sire, did you drink all those ?
Yes !
I drank them all !
Alcohol was nothing, it turned out.
I drank and drank ...

But I am yet to be really drunk...
Previously, I avoided drinking...
Because I feared I might lose myself ...
Tonight, I drank to lose myself ...
But more I drink, clearer my head is becoming...
It looks like I shouldn't have avoided drinking in the first place.

If I knew I was strong against alcohol ...,
I would have started drinking much easiler !
Do you think...
There is anyone in this country who is on my side ?
Sire !

Do you think there is anyone...
who understands my motive... and thoughts
at all in this country ?
This palace is full of bureaucrats who were not satisfied of my recent deed and -
Punished me by kicking me out to Onyang.
And one of them ...
Attempted to assassinate the king.

And then...
And then...
Despite of being unable to understand my motive...
I did feel sorry about her ...
But then, even she ...
No one is ... on my side...
Despite of me
She showed her virtue with her patience but then...

How could you ...

say that out loud in front of me ...

You have my oath,
you have my promise -

That, no matter what,
I will stand by your side ...

Come closer.
Closer ...
I can feel ...
Your heartbeats.

.... Good.
I feel ...
At ease.
....
.... Misu,
take me -

Take me out of this palace.

Is this letter true ?
That Se-Ryu-Gi has come down to here, Onyang?

Yes, the lady has requested your presence.
Very well, lead on.

Who is the lady he is with ...
Misu ?!

Send my message to the lady.
That our meeting tonight has been postponed !
Where are you going ?!
Misu ?!

Or would you rather go to a public house?
*Gi-Bang : Let's just say sex-enabled nightclub.
Or to a *Gi-Bang where drunken men -
Will jump on any females they see.
You don't sound like you approve this action I've taken.
There aren't many places to go at this hour without being inspected.
Overall security has been tightened.
Ever since you came back from Onyang,

Must I remind you that you were hit by an arrow just few days ago ?
As your vassal - !
Your safety comes before anything else !
And ...
And ... !
And you don't want endager someone you are romantically interested in?

.... Who is in front of you right now ?
Aren't you curious my motive behind asking you to take me out of the palace ?
Is it .... liege?
Or ...
Is it ...
Your woman ?

I, I don't think - !
Taking you out of the palace was a good idea !
I shall take you back !

Heh, you are a man after all.
... Thank you.
I noticed how you were looking at me.
You weren't looking at me as your liege.

Thank you, Misu ...
For showing steadfast will.

However...
Know that I cannot accept you.
Just as I could not accept the queen ...
I cannot have you around me always.

If there is one day I can accept you as a man...,
That day will be...

Let's go back to the palace!
I realize I went too far.

Please don't ...
Please dont' hide...
You can try to hide inside the king's coat ...
But I ...
I am ...
I am not going to let you go...

Rather I cannot
let you go now...

What brings you here tonight?
I was informed that you weren't going to visit me toni-

Oh my ♥

That would be the only explanation !
There you are...
Sire, I am afraid I made a rash decision and
came here without informing you first.
I shall leave here as soon as night is over

Oh?
Oh, no.
I am glad you came down here tonight.
Thanks to you, I was able to get some comforts.
If I were alone...,
Tonight would have been a torture.
Do you trust the king ?
Do you trust Misu ?
Do you think they are telling you everything as if they were children ?

I've learned that they stayed here for a night.
I've also learned that this place is open to only nobles and wealthy people.

I see. It's certainly too much for traveling actors.
I suppose they may had someone's backing if they could afford staying there.

Isn't that Se-Ryu-Gi? A mistress who serves Lord Ja-Ul?
?!
Lord Ja-Ul ?
I reckon the chance to kill off Jeong Misu in front of the king is gone now.
Very well, time for a new tactics then.

It's my duty as his grandfather to get rid of weeds for him...
We will play mind games now.
Find cracks between them.
Once you find gaps, widen them, install mistrust, Se-Ryu-Gi.
As you wish..., Lord Han.
